  - 1 day (6 hours) – \$120.00
  - PECV Manuals Vol. VIII \$94.95
  - McGraw Hill Construction Workbook \$74.95
- **GUARANTEED PASS**
- **FREE** Archived Seminars for Repeats for one year

Failing the exam is a very big nuisance, since it will cost you, not only time, but also several hundred dollars of repeat exam fees.

All instructors who teach the seminar are noted experts in their own practice. You will learn a great amount of knowledge based on their expertise. Obviously, it is better to learn from experts rather than listen to amateurs and waste your valuable time.

All seminars are broadcast live with instructors on-site and manual pages displayed on your computer screen. Lectures can be attended live from any part of the US. These seminars are also recorded and archived for later review and can be accessed 24/7. IIT/CSULB have been giving these seminars since 1972. Remote students can interact live through Adobe Connect.

All videos of lectures are archived for future reference and accessible for review and study before the exam date.

These seminars begin on January 13, 2018 and end on 3/3/2018 – Saturday and Sundays.

For complete details and enrollment, please visit IIT website

[www.irvine-institute.org](http://www.irvine-institute.org).

You may pick up the manuals any afternoon including weekends by appointment. Start preparing early, since there is a great amount of material to study. For those who pick up the manuals at site, the shipping fees will be refunded after enrollment.
